

*What plants do people who live in different places eat? (from photos)

Look at the photos and fill out the following table.

| Place where family lives | Plant parts, and foods that come from plants |
|--------------------------|--|
| | |
| | |
| | |

*Which family eats the most food from plants? Which family eats the least?

* Choose one place from your table. Research what types of plants or trees grow there and how the plants are used?

| Name of place | Plants grown | Use of plant as; |
|---------------|--------------|------------------|
| | | |

*Write down what you had for lunch and circle the foods that come from plants.

*Is any of the food you had for lunch made from wheat (wheat flour, bread)?

*Write down your from favorite food from your own country.
