

Class # 2 Summary

For our second week, we continued on our discussion of assessment and evaluation. During the class we also discussed the "where are we going" model which I found to be super helpful as it can be hard sometimes to see progress as well as being able to see where we are going in our progress as teachers (think like progression from not knowing much about teaching to learning more and more). In class we also got to look at some e-portfolio examples which is super helpful when starting to organize our portfolio's.

I chose this as my symbol as this was our first class doing circle time and it was nice to get that organized.
