Chapter 1: Conflict & Cooperation - Fill in Blank Worksheet

CONFLICT

Definition:
- The breakdown of harmonious relationships, arising from clash of interest.
- A misunderstanding or disagreement between two or more people.
- a struggle between opposing forces

Foreign Policy: a set of goals describing how a country's government plans to interact with other countries' governments. It reflects its values and intentions.

- Location, physical features, and distribution of natural resources influence foreign policy

War: conflict over control of land or resources, religious disagreements, political revolutions, or conflict between ethnic groups.

COOPERATION

Definition:
- When individuals or groups combine their effort to accomplish a shared goal
- Working together

United Nations: largest international organization that works for cooperation among nations.

- Founded at the end of WWII by 50 different countries
- Initially created to have nations cooperate to bring peace and security to the world.
- Expanded to improve people's quality of life and human rights

The UN works to protect the human rights of life, liberty, and security.
