Remember to speak the ordered pair correctly (x,y)  
x is the horizontal axis, y is the vertical axis

## **DIRECTIONS:**

- Plot your ships and list the ordered pairs for each ship under the "My Ship" section.
- Guess ordered pairs where you think your partner, the enemy, may have a ship.
- Your partner will respond with either "hit" or "miss"
- If you read the ordered pair incorrectly, you miss your turn.
- Mark a **hit** with an **X** and a **miss** with an **O** on the enemy battlefield.
- After a hit or a miss, it is your partner's turn.
- First person to find all of the enemy ships first wins!
