# My Educational Philosophy

Mrs. R. Cuento

My philosophy centers around creating a nurturing learning environment where students feel safe, valued, and loved, drawing from my own experiences of contrasting classroom atmospheres during childhood.

My experiences have instilled in me a profound appreciation for diversity and inclusion in education, shaping my beliefs about creating welcoming spaces for all students.

I prioritize fostering healthy connections and trust with my students, recognizing their fundamental role in creating an atmosphere conducive to learning and growth.

Watching "The Power of Relationships in Schools" video reinforced the significance of trust-building in the classroom, prompting continuous reflection on my teaching practices.

I believe in investing in meaningful connections with students to empower them to explore, learn, and thrive in a supportive learning environment.

Learning thrives in an emotionally and physically secure environment, necessitating the establishment of trust and rapport with students.

I aim to foster a culture of respect, empathy, and collaboration to empower students academically, socially, and emotionally.

My ultimate goal as an educator is to prepare students not only for academic success but also to navigate the complexities of the world with confidence and resilience.
