hunting for  
crocuses

My home - garage sales where we would sell lemonade and cookies.

Forest behind Friend's house - tucking in our splash pants and walking through the worst deep water in the ditch.

Elementary school - Grade 1 teacher making up stories using the classes' names and drawing small pictures on chart paper to help tell them.

Soccer field - playing hide and go seek at night with friends and parents. Hiding under decks and in long grass.

Grandparents' farm - gardening with grandma and swimming in the pool. Hiking in the hills, hunting for crocuses, and having picnics near the dam.

Social studies - Whitebear Lake, Saskatchewan hills  
Treaty Ed - Whitebear First Nations  
Science - wildflowers, deer, bears, geese

Social justice - The town might look like an invasion  
From a privilege it might look small and insignificant

Children in the school - some Indigenous children and Filipino children. Language barriers. School counselors for support. Many agricultural opportunities.
