3. Instructions for Observer: Are my instructions flowing right, making sense? –

-Observe the SET and hook of the top when I introduce the topic and get students to think about traditions and what traditions they do.

Your slide show goes very nicely with our new unit is Social.
Good pictures of your steps. This will help Ambeba understand.

-Observe closure when students are watching the book and eating there cookies.

Clean up is always chaotic with such a lesson.
You gave them a time limit, the counted down.

Great set up! Breaking up the lesson was great! It gave you time to set up.
The kids had a blast. Everyone was on task.
You had students take ownership to help cleaning (sweeping, wiping tables)
Busy lesson - you had your eyes on students. Kerry-door

5. Other Comments

Quiet tables looked at all cookies. Perhaps offer a prompt "What do you like the best?" This could be a discussion after.
You were able to settle them well to eat.
